

Supra Key Tokens for Single Access.

Real estate agents know it takes a whole team to make a sale. Supra now offers a simple way to provide controlled access to your listings for associates such as contractors, stagers, and cleaning services.

Supra's single access token, part of the managed access service, provides convenient and secure access for individuals who require limited one-off or occasional entry to properties.

Authorization is granted by the listing agent via the eKEY® app for one-time lockbox access during a designated time window. Agents can prepare multiple properties with ease, for example, sending stagers to one location and a plumber to the next.

Supra's single access key is designed for use only by infrequent non-member users who need one-time access to a listing on a pay-per-use basis.

Single Access brings peace of mind knowing you control who and when a property is accessed.

Single Access with tokens went live on **Tuesday, September 5th** and members will see a new icon in the Supra eKEY app titled 'Managed Access.

eKEY users as of this date will be able to purchase tokens for \$3.00 or pass this fee on to the end-user requesting access. Tokens are purchased in packets of 5, so each token packet costs \$15.00.

Important details for you:

- **Grantors Pays Access (e.g., Listing Agent)**
- Granted access to the 'end users' is paid within the Supra eKEY app under 'My Keyboxes'.
